2. (Previously Amended) The workpiece positioning tool as claimed in claim 1 further comprising a plurality of voids in said base member and said first and second sidewalls for securing the tool to a workpiece.

*Cl
cont.*

Claims 3 through 7 have been cancelled by previous amendment.

8. (Previously Added) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 22.5 degree angle.

9. (Previously Added) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 30 degree angle.

10. (Previously Added) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 45 degree angle.

11. (Previously Added) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 60 degree angle.

12. (New) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 90 degree angle.
